Re: New Overflow Parking

In efforts to reduce traffic on Lynn Lane, Starkville Parks and Recreation has provided an access way to additional overflow parking by way of Azalea Lane (located on Hwy 125 S approximately 0.7mi from Academy Rd). This road will ONLY be open on Thursdays, due to the residential neighborhood. Turning Right onto Azalea Lane, proceed approximately 0.2mi until the pavement ends, take a left onto the new road (gravel) which will lead you to a overflow grass parking lot between the softball and soccer fields. If you are playing on Feig, Regions, Rackley, William Wells, and even Bop's field; you may want to consider avoiding Lynn Lane traffic by utilizing the new overflow parking lot. Below is a map to better service you. The road will be open starting Thursday, October 13th. Azalea Lane is a residential neighborhood; we ask that you be respectful of the speed limit. There will be 2 speed tables placed on the road to help reduce speeding through the neighborhood. Thanks!

NOTE: Weather conditions could permit road closures (there are signs on Hwy 125 S showing road opening/closures).
